EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christian Nicholes on 10/21/08.

The application has been amended as follows:

Claim 1, line 5, delete "and"

Claim 1, line 8, replace "document." with "document; receiving a remote invocation message that represents an invocation of the specified CLI command, wherein the remote invocation message was generated by at least one of the one or more remote systems based on the description document; and executing the CLI command indicated in the remote invocation message."

Cancel claim 7.

Claim 8, line 1, replace "claim 7" with "claim 1"

Claim 9, line 1, replace "machine-readable medium" with "volatile or non-volatile machine-readable storage medium"

Claim 9, line 6, delete "and"

Claim 9, line 10, replace "document." with "document; instructions for causing one or more processors to receive a remote invocation message that represents an invocation of the specified CLI command, wherein the remote invocation

message was generated by at least one of the one or more remote systems based on the description document; and instructions for causing one or more processors to execute the CLI command indicated in the remote invocation message.”

Cancel claim 15

Claim 16, line 1, replace “claim 15” with “claim 9”

Claim 17, line 1, replace “comprising:” with “comprising: one or more microprocessors;”

Claim 17, line 5; delete “and”

Claim 17, line 8, replace “document.” with “document; a mechanism for receiving a remote invocation message that represents an invocation of the specified CLI command, wherein the remote invocation message was generated by at least one of the one or more remote systems based on the description document; and a mechanism for executing the CLI command indicated in the remote invocation message.”

Cancel claim 23

Claim 24, line 1, replace “claim 23” with “claim 17”

2. The following is an examiner’s statement of reasons for allowance: The addition of claim 7 to the independent claims provides that the description document is positively recited as being used to execute the CLI command via a remote invocation message. Using man-pages for the purposes claimed cannot be fairly suggested based on the prior art. Regarding claim 9, the specification sets forth 3 types of mediums, volatile, non-volatile, and transmission. The

amended claim 9 only covers the volatile and non-volatile categories which do not include non-statutory signals. The cited references are provided as relevant background information.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to ADAM M. QUELER whose telephone number is (571)272-4140. The examiner can normally be reached on Monday-Friday.
